

## Do you want your resume to be considered by employers with open jobs in your field?

Career Source works with many employers who are looking for qualified candidates in a variety of positions.

When we have well-presented and error-free resumes that fit what an employer is looking for, we will forward those resumes to the company for them to consider candidates to interview.\*

This is one of the ways you can increase your chances of getting interviews.

1. Go to <https://careersource.crelate.com/portal> to upload your resume **(in Word or PDF)**.
2. We'll contact you before we forward your resume to an employer.
3. You **might** then be contacted by the employer directly.

**\*Please note: Your resume may or may not be circulated based on employer demand.**
